

June 21, 2018

Dear Representative:

On behalf of the over 170,000 bipartisan members and supporters of the American Association of University Women (AAUW), I urge you to support Title IX by cosponsoring the Patsy T. Mink and Louise M. Slaughter Gender Equity in Education Act (GEEA) of 2018. In the 46 years since Congress passed Title IX, women and girls have made significant strides in education. Despite these achievements, barriers to equity in education still exist. This Saturday, June 23, 2018 marks the 46th anniversary to Title IX and more progress is needed. I urge you to cosponsor GEEA and support women and girls' equal access to education.

Title IX of the Education Amendments of 1972 is the federal law that prohibits sex discrimination in education. It covers women and men, girls and boys, and staff and students in any educational institution or program that receives federal funds. Title IX requires recipients of federal education funding to evaluate their current policies and practices, adopt and publish a policy against sex discrimination, and implement grievance procedures providing for prompt and equitable resolution of student and employee discrimination complaints. This vital law affects all areas of education, including: recruitment, admissions and housing; pregnant, and parenting students; science, technology, engineering, and math (STEM); sexual harassment and assault; and athletics.

Despite tremendous progress, challenges to equity in education still exist. AAUW research found that 56 percent of girls and 40 percent of boys in grades 7-12 face sexual harassment. Of that number, 87 percent said it had a negative effect on them.¹ Women's advancement in high-demand, high-wage areas, including computer science and engineering, has stagnated or even declined in recent years.² Pregnant and parenting students are frequently subjected to unlawful policies and practices that deter them from completing their education.³ Girls have 1.2 million fewer opportunities to play sports in high school than boys. Moreover, when it comes to girls of color and chances to play school sports, the reality is even starker. They receive far fewer opportunities than white boys, boys of color, and white girls.⁴ These and other instances of discrimination affect the ability of all students to get the most out of their education. When they do not have equal opportunities in school, our country is limited in its ability to produce skilled workers prepared for an increasingly competitive global marketplace.

To tackle sex discrimination in all areas of education, the Patsy T. Mink and Louise M. Slaughter Gender Equity in Education Act provides additional resources, training and technical assistance to educational entities in order to ensure compliance with Title IX. This bill establishes an Office of Gender Equity in the U.S. Department of Education to coordinate activities within the Department and among other federal agencies. In addition, GEEA supports the work of thousands of Title IX coordinators by providing annual training and technical assistance. This bill also authorizes competitive grants to K-12 schools, colleges, local educational agencies, or states to support their gender equity work.

More than 46 years after President Nixon signed Title IX in to law, girls and women have made great strides in education. Yet despite these accomplishments, more must be done to achieve equity. I urge you to cosponsor the Patsy T. Mink and Louise M. Slaughter Gender Equity in Education Act of 2018.

To become a cosponsor, please contact Frannie Einterz in Rep. Doris Matsui's (D-CA) office at (202) 225-7163 or <u>frannie.einterz@mail.house.gov</u>. Cosponsorship and votes associated with this legislation may be scored in the AAUW Action Fund *Congressional Voting Record for the 115th Congress*. Please contact Pam Yuen, senior government relations coordinator, at 202/785-7712 if you need additional information.

Sincerely,

Dold I Vog

Deborah J. Vagins Senior Vice President, Public Policy and Research
